

Ryan S. Ponsford

Living, Giving, and Loot!

We live life through meaningful relationships, we love life through inspired giving, and we fund life by making intelligent decisions with our loot - our money!

With 20 years in business, non-profit, and financial industries, Ryan Ponsford has learned a few things about relationships, a lot about giving, and has been a disruption to traditional thinking in the financial industry.

He is the Founder of several companies including Akili Capital, MyCompanyGives, and Main Street Philanthropy, a 501(c)3 public charity that teaches life and business skills through giving to youth across the country.

Intertwining stories of his upbringing with his Grandmother's elephant, Akili, Ryan has been a guest for hundreds of interviews, has given speeches, taught courses, chaired events, and facilitated board and family retreats throughout the United States and Canada.

In addition to multiple industry awards and certifications, Ryan plays guitar in a band, sings in a quartet, coaches several of his kids' sports teams, loves teaching on white boards, and having grown up in Sonoma County, has a small affinity for decent wines.
